PLANTERS BANK & TRUST CO.

CAPITAL \$100,000.00.
SURPLUS AND PROFITS \$18,000.00.

Thoroughly equipped for Banking and Trustee Business.
Open an account and let us show you.
Lawsuits and Instruments managed.
Act as Adm'r., Extr. Trustee, Guardian, Agent, Receiver, etc.
Buys and sells Real Estate, and Manages Property.
Safe Fire and Burglar proof vaults.

3 Per Cent. Interest on Time Certificates.

Voice Culture.

Miss Emma Noe wishes to announce to her many friends that she is ready to meet those who desire to study voice culture. For further particulars call at Hotel Latham.

A few Barred Plymouth Rock cockrels for sale at \$1.50 each. Phone 1222 or 94.

THE ATHENAEUM.

The October meeting of the Athenaeum will be held at Hotel Latham tonight with Dr. E. H. Barker, Dr. T. W. Blahey and Rev. C. H. Branch on the program.

FOR RENT—Cottage of five rooms, near business section. Inquire at this office.

PYTHIAN CARNIVAL A GREAT SUCCESS

Cosmopolitan Shows Are Fine Attractions and Attendance is Good and Best Days Yet to Come.

NO OBJECTIONABLE FEATURES

The success of the Carnival of the Uniform Rank, Knights of Pythias, was assured from the first day, when 750 paid admissions were recorded, the best first day ever reported by a carnival here.

The attendance was much larger Tuesday and as the genuine merits of the many attractions are becoming known, the patronage is increasing every day.

The Cosmopolitan shows have never been seen here before, but all who have seen them will testify that a better, cleaner, or more meritorious list of carnival attractions has not been in Hopkinsville.

There are twelve or fourteen of these shows and the usual list of free attractions. The admission at the gate is 10 cents, the shows inside are 10 cents each and the Ferris Wheel, Merry-go-Round and similar features are 5 cents each. In addition to these there are several booths where photographs are taken, pictures shown, etc.

There is a country store well supplied with valuable articles and souvenirs. The shows are arranged in circular form in the park and the grounds are much more attractive than when there is no order or system in the arrangement. They are numbered from 1 up to 17.

The Animal Show, the Outlaw Show and the Minstrel Show are all excellent attractions. Puzzledom, the Coliseum, the Crazy House, the Penny Arcade, the Ghost Show and the Man from Cork also are well worth the money. The Little Horse, said to be the smallest horse in the world, is a great curiosity. Foxy Grandpa and Alice are among the most popular features. The Carousel and the Ferris Wheel of course get their share of business.

There are about a dozen concessions, some of them entirely new.

One of these is a rope ladder stretched at an angle of about 45 degrees from the ground to an electric light post about ten feet from the ground and a dollar is given to any person who will climb the ladder. Many have tried, but few have succeeded. The man with the sledges is also there with a machine to register the force of the blow that is struck.

There are candy stands, ice cream cones, corn poppers and other stands where refreshments of one kind and another can be obtained.

There are no gambling devices, no fakirs on the grounds and there will be no throwing of confetti.

The general manager of the Cosmopolitan shows is J. R. Anderson, who has an office in the park and gives his personal attention to all

details. His press agent and handy man is Charlie Evans, the former press agent with Buffalo Bill's wild west show.

The Executive Committee of the Knights is headed by Fred Callard and he is ably assisted by many of the members.

The Carnival Company is policing the grounds with half a dozen experienced officers, headed by Booth Morris.

A fine feature is Prof. Campbell's band of 24 pieces, which gives concerts every afternoon on the streets and every evening in the park.

The best days are yet to come, unless the weather conditions interfere.

Preferred Stock

Dividend No. 1.

The board of directors of the Hopkinsville Milling Co., in regular session declared out of net earnings a dividend at rate of 3 percent for six months on the preferred stock, same payable on demand at office of the company.

Oct. 1st, 1908.

C. L. DANIEL, Sec'y and Treas.

Victim of Pneumonia.

Jasper Walton, a patient from Warren county, died at the asylum Monday and the remains were interred in Riverside cemetery Tuesday. He was 58 years old. Death was caused by pneumonia.

DON'T WAIT UNTIL COLD WEATHER

Before laying in your winter coal. Let me fill your order with the FAMOUS OAK HILL, NO. 9 COAL. It has been sold on this market for years. It is free from slate and other foreign matter. No coal on the market that produces more heat. No clinkers left in your grate. I have leased the Forbes Coal yard on L. & N. railroad and 13th street. 'Phone me your orders.

Honest Weight, Good Coal and Prompt Deliveries. GASOLINE.

FRED JACKSON, Coal Dealer.

THE BOARD'S PLAIN DUTY.

Kansas City Editor Outlines Plan For Redesigning Waterworks.

The board of public works has an urgent duty to perform in regard to the city water department, and at the same time an opportunity is afforded to distinguish itself from all its predecessors by adopting a systematic business-like policy in the management of the plant.

Although it seems useless to expect some degree of efficiency under present conditions, the members of the board owe it alike to themselves and to the city to approximate the methods of a business corporation as closely as possible in the management of the waterworks.

It is the duty of the board to incompatible with the exigencies of their private business affairs to give their personal attention to the work they should at least see to it that the heads of the department are competent business men who will give their whole time to their duties and, above all, that politics shall be entirely eliminated from the water department.

The insubordination, incompetency, jealousies and recriminations which have been shown to exist among the employees, from highest to lowest, present a situation hardly less dangerous and disastrous than the recent disclosures regarding the unsafe and inefficient condition of the plant.

The plain duty of the board is first to weed out the incompetents and those who are playing politics and next to reorganize at least the mechanical branches of the department on a strict, nonpartisan basis. The people of this community are tired of the everlasting squabbles and alarms in regard to the water supply that have come to light with each new administration as well as of the constant demands for money to do things which should have been done and were represented falsely to have been done years ago.—KANSAS CITY (Mo.) Journal.

CITIES QUIT BUSINESS.

Municipal Lighting Plants Prove Excessive Luxuries.

The city electric plant of Laurens, S. C., was installed in 1897 at a cost of \$30,000. The generating plant has now been shut down, a contract for power having been made with a private company.

In 1905 Pontotoc, Miss., purchased the local electric plant for \$8,000. Two years later it sold it for \$5,000 because, as the writer writes, "it didn't pay expenses." Another citizen writes that the sale was due to "dissatisfaction with municipal management."

Pontotoc, Ind., installed an electric plant in 1892 at a cost of \$42,000. Six years later the generating plant was shut down, and a contract for current was made with a private company.

The village electric plant of Lockport, Ill., installed at a cost of \$20,000, was leased about a year ago to the sanitary district of Chicago for a nominal consideration, as the plant was a failure.

The electric light and water plant of Hickman, Ky., installed by the city at a cost of \$30,000, was leased in 1906 to the Hickman Ice and Coal company for a term of ten years. The mayor assigns as the reason that "the plant was not self-sustaining."

Private Companies Better.
All this talk of municipal ownership which has been going on the nation is but a fact, and every city has found to its cost that poorer service has been derived from municipally owned plants than from the corporations owned and run on business principles by private capitalists.

Statistics back out this. You can find towns that have municipally owned lighting plants and you will find all sorts of schedules prevailing—moonlight schedules, dark night schedules and, in fact, everything but a clear schedule for light every night at a stated price, no matter what weather conditions prevail. You can't get away from the cost of these plants, and you get poorer service.

The temptation to inject pinto into the management of these municipal plants is too strong for the average man to resist, and in most every municipally owned plant you will find it run to the neglect of the ruling party or to the neglect of the public.

The tendency is to number friends of the management, and all this talk of divorcing business of the city from politics is foolish. As long as human nature remains the same it will not be done, no matter who gets the office. Hon. W. R. Burnett, Mayor of Springfield, Ill.

Careless Management.

The auditing department of Elyria, O., has just made a full report of its investigation of the municipal water works. Among the points of interest set forth in the report are the following: For 1907, \$5,005.70; at least 25 per cent of the water pumped not accounted for; important meters allowed to remain out of order for periods varying from one month to two years. The department recommends a 35 per cent increase in the rates and adds the following suggestive paragraph:

"With reference to the board of public service should keep in closer touch with the affairs and financial condition of the water department from month to month and require monthly reports from the waterworks superintendent as to amount of water pumped, supplies which probably would be needed during the next month and statement of supplies on hand, etc."

CROPS WITHOUT RAIN.

Village Methods Employed by Farmers of Palestine.

In Syria and Palestine the farmers need no rain. From the beginning of April until October there is scarcely a drop of rain. During the dry season there is a vigorous growth of watermelons, tomatoes, cucumbers, etc., all flourishing without artificial watering, although at that time no rain has fallen for many weeks. In fact the Syrian peasant from the moment his seeds have been sown prays that no rain may fall.

During the period of growth of a crop the surface of the soil to a depth of six or eight inches is perfectly dry and loose. Below this surface layer will be found moist soil in which the roots extend and grow vigorously. This moist soil causes plants to continue to grow late in autumn. When the crop is removed in the autumn the rains commence, and the land is plowed after each heavy rain as soon as the soil begins to dry.

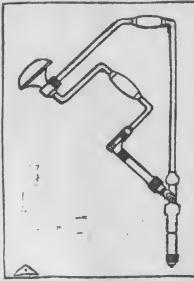

Two primary objects are kept in view: to furnish a favorable surface for taking up all the water and to prevent its upward evaporation from the subsoil. The great point is to keep the upper six inches of soil perfectly loose and friable, so that the moisture from below is not drawn upward and lost in evaporation, but does not ascend higher than the surface of the soil closing over behind the plowshare. For this reason the plowing is shallow, averaging from four to six inches in depth. When the time for sowing the seed arrives the land is plowed to a depth of about six inches, and the seed is sown from an arrangement attached to the plowshare on the double plow so as to be covered by the soil closing over behind the plowshare. From this time the upper stratum of loose soil prevents the escape of moisture upward beyond the wet subsoil on which the seeds rest and into which their roots after the process of germination spread.

A HANDY BIT BRACE.

Enables Operator to Bore Holes in Corners and at Any Angle.

Carpenters should erect a monument to a man in New York, for he has overcome the difficulty they have experienced for years of boring holes in corners. This man has invented a bit brace that will bore a hole in any corner at any angle desired.

The brace has a supporting bar of angular form that holds within it the

NEW BIT BRACE.

rotating driver, one end of which engages and turns the socket that holds the bit. The cut describes this tool better than that the mechanism can be explained by people who have little use for tools, but it means that the corner huckaboo no longer exists for carpenters and that the change from the old methods of working in such places is almost revolutionary.

Paintings of Primitive Man.
Prehistoric paintings recently unearthed show man to have been like an ape. The only known examples of paintings of men by prehistoric cave decorators have been discovered lately in the Pyrenees, in a cave of Loscares, in Arles, France, where Nouet already had found quinary remains and human bones. About forty sketches in black or red, only one in both colors, ador the cave as frescoes, and two represent men of a primitive type, while the others are of animals and horses. Of the human figures one has a long head, with retreating forehead, while the other shows a remarkable apelike pose, with rounded back and arms pendent in front. There is a cringing bear, but the horses are mostly galloping and poorly drawn, although the forequarters of a horse are quite skillfully figured in black on one of the darkest walls of the cavern.

We Are Dying Younger.

In view of the fact that we are said about the fail in the death rate, it seems strange to realize that we are not living as long as our grandfathers did in former days.

More babies live to grow up nowdays than formerly, but people in later life die younger. Once arrived at adult age the average man or woman has fewer years of survival to expect. This seems on the face of it so strange that it should be backed up by data authentic and indisputable. Such data are furnished by the figures of the insurance companies, which all agree on the point, but it is easier to refer to the government census reports, which tell the tale in simple and convincing fashion. Even during the last fifteen years the death rate among all persons over fifty-five years of age of

SEA BATHING.

The Effects of Salt Air and Water on the Human Body.

There is a reason why parents have not no rain. From the beginning of April until October there is scarcely a drop of rain. During the dry season there is a vigorous growth of watermelons, tomatoes, cucumbers, etc., all flourishing without artificial watering, although at that time no rain has fallen for many weeks. In fact the Syrian peasant from the moment his seeds have been sown prays that no rain may fall.

THE VOODOO IN HAITI.

Human Sacrifices to the God of the Serpent.

There is ample proof that human beings have been offered as sacrifices to the god of the serpent in Haiti. A French archbishop has recently declared that he has been informed by one of the priests to a voodoo assembly. The man had disguised himself as a negro, and he was thus able to mingle undetected with the crowd in the obscurity outside the sacred circle. After the white cock and white goat had been sacrificed, the priest said, "Now we must be spilt upon the company's body," and then a young negro came forward and prostrated himself before the priestess. Then, still kneeling, he made his prayer:

"O mamam, I have a favor to ask of thee."

"What is it, my son?" said the priestess, approaching to complete the sacrifice, the goat without horns?

The priestess gave a sign of assent. The crowd roundabout separated, and there was revealed a child sitting with its feet bound. The French priest said that the serpent was the chief in preventing the unholy rite, but the authorities on whom he called were strangely slothful. When finally, on the day following, they arrived at the place of assembly, they found the grawsome remains of a sacrifice and a fest, among them the boiled skull of the child.—Marvin Dana in Metropolitan Magazine.

When Men Hurry.

"Singular," said a man waiting for a train on an elevated railroad platform and looking down a street to where a hundred men and boys had gathered around two who were evidently gathered together in collision. "There are a hundred men standing around those two wagons, just standing there, gaping apparently with nothing else to do and not in a bit of a hurry, but let any one of those men come up the stairs to this platform when there is a train coming in, and they are off and away and tear himself apart to catch that train and get him if he missed it, though he knew very well that there'd be another train here in a minute. Let him miss a train by a second and he thinks the world is coming to an end; let him see somebody bolting a safe door outside of a building and he will stop to waste half an hour."

"How do you account for that?"—New York Sun.

Mme. de Struve's Wit.

Secretary Blaine had said of Mme. de Struve that she was the brightest woman he had ever met, and everybody who ever met her agreed with this verdict. Her knowledge of English was remarkable, even for a Russian, and her sallies were famous. For instance, the day when Secretary Bayard was made head of the American diplomatic service his daughter, Miss Alice, was invited to a dinner at the home of Mme. de Struve. "Young secretary of legation, I beg pardon, I am now a mother of your child!" to which came, quick as a flash, the retort from Mme. de Struve's lips, "Oh, we all know that you are a mischief!"—Army and Navy Life.

His Terms Varied.

"I give a little recess next Thursday evening, and I should like some music, piano solo particularly. What would be your terms?" Thus a lady to a professional instrumentalist.

"If I go there simply as a musician," was the reply, "and play my selections for you, you will give me five guineas, but if I come so as a guest and spend two evenings talking to you over a glass of beer, I charge double fee!"—London Graphic.

A Sure Thing.

She—Did father say anything about you being a young man?—Well, yes; but he said I'd age pretty rapidly after we were married and I found I had to pay your bills.—Illustrated Bits.

A happening that is quite undifferentiated from the common, was inst-

The Weather.

FOR KENTUCKY — Partly
cloudy and cooler Thursday.

Detroit defeated Chicago Tuesday
and won the American League Base-
ball Pennant, and the tie in the Na-
tional League between New York
and Chicago will be played off to-day.

Bryan in Iowa and Taft in Mis-
souri continued to sweep 'round the
circle Tuesday, and last night met at
the chamber of commerce banquet
in Chicago and both made speeches
on non-political subjects.

Registration in the cities of Ken-
tucky showed that the people
are going to vote if they are
saying but little about politics. Dem-
ocratic gains were made in Owens-
boro, Mt. Sterling and Richmond.
The registration was very heavy and
a full vote may be expected. The
stay-at-home vote is preparing to
get out this year.

Congressman A. O. Stanley, and
John C. Worsham, his Republican
opponent for Congress in the Second
district, met in joint debate at Hen-
derson Tuesday night before 5,000
people. The night rider situation
was the subject and national issues
were not touched upon.

Mr. Stanley indignantly denied
the charge of his opponent that his
speeches had incited lawlessness, and
also paid his respects to Gov. Will-
son and E. T. Franks. The crowd
was largely for Stanley and cheered
him with much enthusiasm.

No crime since the days of savage
warfare has so outraged the law in
Kentucky as the massacre of a whole
family of negroes at Hickman Sat-
urday night, as they ran from their
burning home begging for mercy
that was not shown even to the
mother and infant children. Simon Girty
in his palmy days was never guilty of a more brutal and
atrocious deed. And yet the press
dispatches say no excitement has
followed the crime in the vicinity.
The eyes of the whole country are
upon Hickman county.

Longworth denies that he predict-
ed two more terms for Roosevelt
after eight years for Taft. His
statement follows:

"I said: Ohio would not be selfish
and would yield to some other state —
perhaps New York — to nominate
the next president."

I had no particular candidate in
mind, New York coming first into
my mind because of the presence of
Mr. Sherman on the platform. At
this point many people shouted
"Roosevelt," and the audience cheer-
ed his name loudly." As Sherman
is not presidential time, Nick's ex-
planation hardly explains.

Two reporters have made affidavit
that he was correctly quoted.

FIENDS WIPE OUT FAMILY

Shoot Woman and Five Children
One by One as They
Leave the Flames.

UNHEARD-OF ATROCITY.

Massacre of Negroes By the
Night Riders, Near
Hickman.

Hickman, Ky., Oct. 5.—The bodies
of Dave Walker and his family, dead
and dying, were allowed to lie out in
the open all night Saturday and the
injured received no medical attention
until Sunday afternoon. There
is no clue to the night riders who are
guilty.

Fifty men wreaked a terrible re-
venge upon Dave Walker, colored,
said to have cursed a white woman and
charged also with having drawn a
revolver upon a white man, by setting
fire to his house Saturday night
and shooting him and members of
his family as they emerged from the
burning cabin. Walker, his five-year-
old daughter and a small baby were
killed outright, while the mother,
who was carrying the baby in her
arms at the time it met its death
wound, was shot through the stomach
and will die. Three other children
were shot down and may die as
a result of their wounds, while the
oldest son of Walker is missing. It
is believed that he was burned alive
in the cabin.

NIGHT RIDERS SURROUND HOUSE.

The night riders, numbering about
fifty, surrounded the home of Walker
shortly before midnight and com-
manded him to come out and take a
whipping. Walker declined whereupon
on the saturated timbers of the house
with coal oil and set fire to them. In
an incredible space of time the house
was a mass of flames and the shrieks of
those on the inside were horrible to
hear. Finally Walker, pleading
for mercy, threw open the door of
his cabin and ran out into the open.
He was riddled with bullets and fell
screaming to the ground.

SHOOT BABY IN MOTHER'S ARMS.

Following close upon the heels
of her husband Walker's wife ap-
peared the night riders for mercy.
Disregarding her pleadings, the infuriated
mob opened fire and a bullet
pierced the body of the infant in its
mother's arms. A second shot struck
the mother in the abdomen and she
fell, holding the dead body of her
infant.

NIGHT HIDEROUS WITH SCREAMS.

Terror stricken by the flames,
which were licking all sides of the
cabin, yet fearing to venture into the
open, the remaining children of Walker
made the night hideous with their
screams. The five-year-old daughter
was the first to venture through the doorway, following the
fate of their mother, father and the
baby, but three other children fol-
lowed close at their heels. The girl
was killed outright, and the other
children received wounds which it is
believed will prove fatal. There is
hardly a doubt but that the oldest
son of Walker preferred death by
burning rather than to place himself
at the mercy of the mob, and it is
probable that his charred body will
be found among the debris.

COMPEL MAN TO WATCH HORSES.

Before arriving at the home of
Walker the night riders stopped at
the home of Joe Williams, a white
man, and compelled him to accom-
pany them to the scene of the slay-
er. When the night riders di-
mounted they left Williams to look
after the horses a short distance
away.

Walker and his family lay all day
Sunday on the spot where they were
shot. A negro doctor went out to see
them, but for fear of night riders
refused to go back again.

They were seven in the family, three
being killed outright, three wounded
who will die and one missing, who is
supposed to have perished in the
burning building.

Tom Bone, a white man and neighbor,
who heard the shots, rushed over
toward the house. The night
riders stopped him and turned him

got home in a hurry.

No excitement prevails here. No
arrests have been made. The sup-
position is that there will be none.
Late yesterday afternoon coffins
were sent out and the dead were
buried by white people.

Saved Sister's Life.
Little Rock, Ark., Oct. 5.—Told
that unless the operation of skin
grafting was resorted to, his ten
year-old sister, Helen, would die
from burns received August 10,
Sam Tenenbaum, aged 17 years,
volunteered to furnish the skin and
at the St. Vincent Infantry the op-
eration was performed.

The boy and his sister were placed
on adjoining operating tables, anes-
thetics were given and more than
eighty square inches of skin was re-
moved from young Tenenbaum's
thighs and applied to the unhealed
sores on his sister's breast.

BEFORE GRAND JURY

Gov. Willson Was Summon-
moned but Declined to Di-
vulge for Present.

Gov. Willson was summoned before
the grand jury Tuesday, at the
instance of County Attorney John
C. Duffy, but it is understood the
Governor declined to divulge the evi-
dence that has been gathered against
night riders. In discussing the af-
fair afterward he said that the in-
formation he possessed was from re-
ports received from his men, and was
therefore incompetent before grand jury,
as he did not have personal
knowledge of the fact. He said
that he had the evidence, though
in proper form, and that when the
time came it would be laid before
the grand jury that wanted it. He
left at 11:30 o'clock for Princeton,
where he made a speech that after-
noon.

OLD OFFICERS ARE RE-ELECTED

Planters Protective Associa-
tion Organizes New Com-
mittee.

WING AND FORT

Are Both Retained And No
Opposition Developed—
Mr. Radford Loses.

Guthrie, Ky., Oct. 7.—The board
of directors of the Planters' Pro-
tective association elected officers
for the ensuing year as follows:

Felix G. Ewing, general manager;
Charles H. Fort, president; J. W.
Usher, of Graves County, vice-president;
Jno. D. Scales, auditor; Guy
S. Dunning, general inspector; W.
C. Warfield, of Adams, Tenn., Ed-
Miller, of Paducah, and J. O. Bell,
of Cobb, graders. The elections of
secretary and treasurer have not yet
been made.

The elections all passed off most
harmoniously. The opposition to Mr.
Ewing and Mr. Fort, which was
recently reported some time ago,
failed to materialize.

W. W. Radford, of Christian coun-
try, was endorsed for general inspec-
tor by his county committee but Guy
Dunning was re-elected.

Come and see the great cooking
wonder at our store all next week.
See advertisement in this paper.
Forbes Mfg. Co., Incorporated.

In the twinkling of an eye.
Water shall still more wonders do—
Now strange—shall yet be true.
The world upside down shall be,
And gold be found at root of tree.
Through hills men shall ride,
And no horse or ass be at his side.
Under water men shall walk,
Shall ride, shall sleep, shall talk.
In the air men shall be seen,
In white, in black, in green.
Iron in the water shall float
As easy as a wooden boat.
Gold shall be found—and found
In a land that not known.
Fire and water shall wonders do,
England shall at last admit a Jew,
The world to an end shall come,
In eighteen hundred eighty-one.

We are giving free \$7.50 worth of
ware at our store next week. See
advertisement in this paper for par-
ticulars. Forbes Mfg. Co., Incor-

IN MEN'S CLOTHES

Authorities at Ellis Island
Decide to Permit Woman
to Wear Male Attire.

New York, Oct. 5.—The Ellis Island
and immigration authorities, who
had detained Miss Mary Johnson
the Canadian woman, when she ar-
rived here on the American liner
New York, under the assumed name
of "Frank Wood Hull," and wearing
men's clothes, today decided to allow
her to proceed to her destination,
New Orleans, still garbed in
masculine attire.

Miss Johnson, fifty years old, and
of masculine appearance, had de-
clared to the authorities that having
been born unprepossessing as a wo-
man, she had found herself practi-
cally shut off from earning a living,
and only as a man had she been able
during the last fifteen years to earn
a regular income as a book agent
and maintain her respectability.

ON THE STUMP
Smith and Morrison Will
Address Voters.

David Smith and C. W. Morrison,
Democratic nominees for sheriff and
county judge, will address the voters
of Christian county at the following
times and places:

Grisson's Store, Friday, Oct. 9, 1
p.m.
East School House, Friday, Oct. 9,
7 p.m.
Bainbridge (Woosley's Store), Sat-
urday Oct. 10, 1 p.m.

Gracey, Saturday, Oct. 10, 7 p.m.
Lafayette, Monday, Oct. 12, 1 p.m.

Pee Dee, Monday, Oct. 12, 7 p.m.
Bennettstown, Tuesday, Oct. 13, 1
p.m.

Howell, Tuesday, Oct. 13, 7 p.m.
Era, Wednesday, Oct. 14, 1 p.m.
Lantrip's School House, Wednes-
day, Oct. 14, 7 p.m.

Macedonia (Murphy's store),
Thursday, Oct. 15, 1 p.m.
Cone's School House, Thursday,
Oct. 15, 7 p.m.

Castleberry School House, Friday,
Oct. 16, 1 p.m.

Empire, Friday, Oct. 16, 7 p.m.
Crofton, Saturday, Oct. 17, 1 p.m.
Kelly Station, Saturday, Oct. 17, 7
p.m.

A number of prominent speakers
will accompany the candidates and
address the voters at said times and
places.

Don't fail to hear them.

A convention of the Powers will
be called jointly by England, France
and Russia to consider the situation
growing out of Bulgaria's declara-
tion of independence and Austria-
Hungary's annexation of the Provin-
ces of Bosnia and Herzegovina.
The Bulgarian Minister of Foreign
Affairs has called to the Associated
Press a statement of the situation,
giving the reasons for Bulgaria's
action.

The Kentuckian has been designated as one of the depositories
of contributions to the National Democratic Campaign Fund and
subscriptions will be received and forwarded to Governor Haskell,
the treasurer of the National Democratic Committee. A list of all
subscribers and subscriptions will be kept and publication made.

In the event that contributors desire their names to be omitted
they will kindly say so and their wishes will be respected. All con-
tributions, irrespective of amount, will be welcomed, and letters

containing subscriptions should be addressed to "The National
Democratic Campaign Fund, care of Kentuckian, Hopkinsville, Ky."

Elkin, Ky., Oct. 5.—W. B. Brew-
er, one of the most prominent citi-
zens of Todd county, died at his
home in Fairview this morning at 10
o'clock. He had been in ill health
for some time and his condition has
been serious since an attack of para-
lysis two weeks ago. He was about
50 years of age and is survived
by his wife and two sons. He was
editor of the Fairview Review, was
several times Magistrate in his
district, was the Democratic nomi-
nee for Representative at the last
election and ran ahead of his ticket,
though defeated by the Republican
landslide. He was prominent in
fraternal orders, being a Knight Tem-
pler, Knight of Pythias, Mason and
Elk. The funeral will be held in
Fairview Tuesday morning under
the auspices of the Masonic frater-
nity.

The Majestic Mfg. Co. of St. Louis,
Mo., will have a man at our store all
next week who will show you how to
make biscuits brown, top and bot-
tom, in three minutes. Don't miss
this chance of seeing the great cook-
ing wonder. Forbes Mfg. Co., In-
corporated.

BANQUET TO THE BAND BOYS

Mr. W. A. Wilgus the Host
At a Six O'clock Dinner
at Hotel Latham.

INFORMAL SPEECHES

Followed By a Concert By the
Band In Lobby Of the
Hotel.

Mr. W. A. Wilgus was the host at
a dinner given Monday night to the
musicians of Lebkeucher's Band, in
the Ordinary at Hotel Latham. Present
were Bandmaster H. L. Lebkeucher, sixteen members of
the band and Messrs. R. H. DeTreville,
H. Clay Smith, T. C. Underwood
and Chas. M. Meacham.

A delightful meal was served, begin-
ning with oyster cocktail and ending with
several informal speeches were made.

Mr. W. A. Wilgus was down on the
program as (Chin) Music Director
and touched off the speakers.

Mr. T. C. Underwood talked pa-
thetically to the subject "O, Listen
to the Band," saying much about the
band and some good things off
its subject.

Prof. H. Clay Smith's subject "To
Be or Not To Be," gave that accom-
plished after-dinner speaker an op-
portunity to make one of his hap-
piest speeches.

Bandmaster Lebkeucher spoke on
"Music's Big Stick" and reviewed
the struggles of his band and thank-
ed all who helped to bring about its
present success.

Major Meacham spoke "The Last
Sad Strain" and made everybody
glad when the time came to go down
into the lobby and listen to the con-
cert that closed the evening's pro-
gram.

Mr. Wilgus was presented with a
beautiful gold-headed silk umbrella
by the members of the band.

W. B. BREWER

Prominent Todd County Man
Succumbs to Paralysis.

Elkin, Ky., Oct. 5.—W. B. Brew-
er, one of the most prominent citi-
zens of Todd county, died at his
home in Fairview this morning at 10
o'clock. He had been in ill health

Nothing Equals Pe-ru-na For Serious Kidney Trouble.

MR. W.F. CLOW

Kidney Affection,
Asthma.Mr. W. F. Clow, 428 E. St.
Vrain St., Colorado Springs,
Col., a retired real estate man,
writes:

"I am a man of over seventy years of age, and I have had perfect good health entirely to Peruna. I began using it about a year ago for asthma and kidney trouble, and took several bottles. I have not felt better for years."

"Different members of my family have used it also, and have only words of praise to speak for Peruna."

Attributes Health to Pe-ru-na.

William Bailey, 811 St., N. E., Washington, D. C., a member of Department No. 69, Union Veteran Legion, and prominently identified with many of the great labor protective associations in Chicago and New York, and Secretary of one of the largest associations in the former city, had for nearly thirty years been associated with kidney troubles. When he was first taken ill he was persuaded to try Peruna, and his present healthy condition is attributed to his judicious use of that great remedy. He considers himself now quite cured and in excellent physical condition.

People Who Object to Liquid Medicines Should Buy Peruna Tablets

MR. JOHN N. WATKINS.

Kidney and Bladder Trouble.

Mr. John N. Watkins, 3138 Shenandoah Ave., St. Louis, Mo., writes:

"Among all the greatly advertised medicines for kidney and bladder trouble there is nothing which equals Peruna. I suffered for several years with this trouble, spent hundreds of dollars on doctors and medicines and all to no purpose, until I took Peruna."

"One bottle did me more good than all the others put together, as they only relieved the symptoms. Peruna is the only medicine I ever used that really relieved me. I used it for four months before a complete cure was accomplished, but am truly grateful to you. The least I can do in return is to acknowledge the merits of Peruna."

TO SUE THE CIRCUS

Ringling Brothers Blamed
For Fire Loss at Bowling
Green.

Bowling Green, Ky., Oct. 5.—The Ringling Bros. circus will be defendant in two suits growing out of a fire which destroyed a hedge and a large field of grass as well as 1,000 feet of track for the street railway company. When the company cleared up its debts late Saturday night some member of the company set fire to the straw that was left and this in turn caught the grass in the field, communicating to the hedge and then to the poles and cross-ties of the street railway company. The damage will amount to several thousand dollars.

Walter Wellman discusses the political chances in New York State, which he declares, Bryan must carry to be elected, and tells of the doubt as to the labor vote and the strong drift of wage earners to Bryan. He reasons, however, to believe the state will line up for Taft by possibly not more than 10,000 or 20,000.

Died of Tuberculosis

The wife of Ned Turner, col., of the firm of J. R. Hawkins & Co., died yesterday of tuberculosis, aged 53 years. She had been ill several months.

Walter Wellman discusses the political chances in New York State, which he declares, Bryan must carry to be elected, and tells of the doubt as to the labor vote and the strong drift of wage earners to Bryan. He reasons, however, to believe the state will line up for Taft by possibly not more than 10,000 or 20,000.

Gov. Wilson spoke at Princeton and Paducah Tuesday and will conclude his Western Kentucky speech at Madisonville Saturday.

It's True, Never False.
It's hard for some people to believe that a man may be a success and die poor as well.—Detroit Free Press.

SECOND TRIAL WINFREE CASE

Circuit Court Deep In The Hearings Of The Arguments.

JURY FROM A WHEEL.

Other Court Matters Of More Or Less Importance.

The trial of W. P. Winfree, Jr., which was begun last Saturday, has taken up all of the time of Circuit Court this week and is still in progress. The defendant is a young attorney who killed policeman Chas. E. Hord on Dec. 10, 1907. Hord had arrested Winfree for disorderly conduct and he was taken to police headquarters in the patrol wagon and fined. After leaving the headquarters he went home and secured a pistol, and approaching Hord while he was on his beat, near the L. & N. depot, shot him through the body, inflicting a wound that soon caused his death. The case was tried at the last term of court and resulted in a mistrial. Congress man Stanley appeared as one of the attorneys for the defense in the former trial, but is not in the case this time.

The attorneys for defendant are C. H. Bush, John Feland, Joe McCarroll, and his father, Judge W. P. Winfree. The prosecuting attorney, Denny Smith, is assisted by city attorney Walter Knight.

The empanelling of a jury took up three days, as the jury was seated on horseback directly after the shooting and got across the border into Caldwell county.

THE JURY.

Thompson Cavanaugh, J. H. Johnson, Carl Long, J. West, Jas. McKinney, W. S. Henderson, J. B. Anderson, F. A. Yancey, J. G. Yancey, J. A. White, G. M. Lacy and A. B. Johnson.

The taking of testimony for the state was concluded about three o'clock Tuesday. The case as presented before was made somewhat stronger by the ruling of Judge Cook that the character of officer Hord could not be attacked. This ruling shut out some damaging testimony admitted before.

The defendant took the stand about 4 o'clock Tuesday afternoon and repeated his former version of the affair without material change.

The examination of witnesses for the defense was concluded yesterday afternoon and argument began at three o'clock. The court allowed three hours to the side. John Land was speaking when the Kentuckian went to press.

SENT TO JAIL

For Refusing to Testify Before Grand Jury.

Ringling Brothers Blamed For Fire Loss at Bowling Green.

Bowling Green, Ky., Oct. 5.—The Ringling Bros. circus will be defendant in two suits growing out of a fire which destroyed a hedge and a large field of grass as well as 1,000 feet of track for the street railway company. When the company cleared up its debts late Saturday night some member of the company set fire to the straw that was left and this in turn caught the grass in the field, communicating to the hedge and then to the poles and cross-ties of the street railway company. The damage will amount to several thousand dollars.

Walter Wellman discusses the political chances in New York State, which he declares, Bryan must carry to be elected, and tells of the doubt as to the labor vote and the strong drift of wage earners to Bryan. He reasons, however, to believe the state will line up for Taft by possibly not more than 10,000 or 20,000.

Died of Tuberculosis

The wife of Ned Turner, col., of the firm of J. R. Hawkins & Co., died yesterday of tuberculosis, aged 53 years. She had been ill several months.

RATIONAL CURE FOR ECZEMA

No More Dosing the Stomach—Cure the Skin Through The Skin.

When you have a scratch on your hand you wash it out and cleanse it and then the skin cures itself. You do not take blood medicine to cure a festering wound.

The best skin specialists today are agreed that the only way to cure the skin is through the skin.

The fact that eczema is a skin disease is evident from statistics which show that nearly all eczema sufferers are perfectly healthy in all other ways except as to their skin. The eczema patients were really suffering from an inward malady, the entire body, and not only the skin would be diseased.

You can prove immediately the relief of a true skin cure by using oil of wintergreen as compounded in D. D. Precraption.

This liquid attacks the disease germs, numbing them while building up the healthy tissue of the skin. We have now handled this meritorious and thoroughly scientific remedy for so long and have seen its reliable results so many times that we freely express our confidence.

TRAGEDY

Business Man Assassinated by Farmer Over Old Grudge.

Dawson Springs, Ky., Oct. 5.—

After he had left town to escape trouble, Joe Holman, a prominent Everyman of this city, came back Saturday afternoon only to be fatally shot by Floyd Snyder, a farmer. The shooting took place on the sidewalk in front of Holman's home. Great excitement prevails here over the assassination and violence is feared if Snyder is caught. He escaped on horseback directly after the shooting and got across the border into Caldwell county.

Oct. 25-27-28.—Supplementary Registration.

Nov. 3.—Presidential Election.

*** *** *** *** *** *** ***

In the STRAND MAGAZINE for OCTOBER, Winston Spencer Churchill's narrative entitled "My African Journey" describes his expedition from the Victoria to the Albert Nyanza. In his "Reminiscences and Reflections," Sir John Hare, the eminent English actor, describes some highly interesting and amusing experiences during an American tour; of particular interest to all who take pleasure in the beautifying of their homes is an article "Describing and Illustrating" English Homes and Gardens"; the color selection contains a number of full page duotone photographs of "The World's Most Beautiful Women"; Harry Furniss, the famous caricaturist, writes about and illustrates "The Comic Side of Crime"; Camille Flammarion, the eminent French astronomer, contributes a wonderful article entitled "Worlds: The Dust of the Infinite, in which he takes us with him through the immensity of celestial space; in "The Little Problems of Mr. Briggs" are presented some very curious and interesting problems which the author answers in a very masterly way; the fiction consists of a uproaring funny instalment of "Salthaven," by W. W. Jacobs; a serial story for children, entitled "The House of Arden," by E. Nesbit, and six splendid short stories by popular authors. The number concludes with "Curiosities," a prominent and popular feature of the STRAND.

REGISTRATION WAS HEAVY

First Day Shows Increase of Full Figures Last Year.

MANY INDEPENDENTS.

Comparison With The Figures in the Election Of 1907.

The registration Tuesday was the heaviest ever recorded in Hopkinsville on the first day. The total last year was 1728, of which 1043 were white and 685 colored. As divided politically there were 737 Democrats 592 Republicans and 157 Independents. In the election that followed the Republican ticket received 597 votes and the Democratic ticket 611, a Republican majority of 286.

The following table shows the registration for each year by districts:

	White	Col.	D.	I.	R.	Total
No. 1	174	147	94	41	186	321
No. 2	63	400	40	20	409	468
No. 3	302	32	194	61	79	334
No. 4	26	76	142	62	98	302
No. 5	177	34	107	16	88	211
No. 6	126	37	89	20	54	163
	1073	726	666	223	196	1799

Precisely 100 more voters may be expected to add to the list at the supplementary registration Oct. 26, 27, 28.

NEW TUNNELING DEVICE

Machine Bores Through Rock at Rate of Twenty Feet a Day.

A machine invented by Olin S. Proctor, of Denver, Colo., is used for the boring of tunnels, according to the New York World. The machine will tunnel through solid rock at the rate of twenty to forty feet a day, varying with the hardness of the rock. Formerly two or three men, working with drills and glycerin sticks, could do no more than five feet a day at a time. Instead of using long jagged cutters that have to be chiseled and propped, the new machine in its boring smooths the sides as by hand. In one day two men can do with this machine what would take ten days with the old, tedious method.

The machine is twenty-three feet long and has a head of eight feet, just the size of the boring. In this head, made of well tempered steel, are two

four-foot drills, each working independently and run by its separate pipe of air. These cut out their own holes in the rock, giving a sharp, glistening edge to the rock.

The machine rotates once a minute, exerting a terrific pressure on the drills, scooping up the chipped material and throwing it back to a car in the rear.

The head itself has the appearance of four large scoops spreading around the main power drill, and the power of the machine is an engine of 600 horsepower. The cow wheel underneath the machine, capable of speed at 5,000 revolutions a minute, but held down to 1,000, is the force behind the head.

If one drill is disabled the others go on working just as before, and the broken or blunted one can be replaced immediately.

If the face of the rock is variable in quality the boring is made through the soft and hard stone at precisely the same time. This smooth chipping is insured by an air cushion regulating the severity of the pressure.

After a Struggle.

An angler returned at eventide laden with a single pictorial burden of a side and weight which ought to have instantly commanded the admiration and respect of his wife.

"There, Maria, what do you think of that for a catch?" And the terrific struggle before I landed it you'd hardly believe."

"Oh, yes, I would," said Maria easily, "but I'm afraid the disgruntled hargassing and bargaining which went on for half an hour outside the fisherman's before he and you."

THE PILLORY.

Titus Gates and Daniel Defoe Both Suffered In It.

In the year 1837 the British parliament passed an act that put an end to punishment by pillory. Previous to the conquest this particular instrument of torture was used in England and even by the name of the "wreath neck." It consisted of a wooden frame erected on a stool in which were three holes for the head and arms. For days together offenders against the common law were thus exposed to public view. From this particular form of punishment was matred out to those convicted of frauds of every description not only in England, but in nearly every country in Europe. In the days of the star chamber, when religious persecutions ran high, the pillory was the ordinary punishment meted out to those condemned against the church. In 1685 Titus Gates was sentenced to be pilloried for five days in every year during the rest of his life. Another famous sufferer was Daniel Defoe, the author of "Robinson Crusoe," who stood in the pillory in the city of Chippingdale. It happened on occasions that the offender died while undergoing his sentence. During the time of exposure the condemned man was not allowed to receive food of any sort or description. The last occasion on which a pillory sentence was passed was in 1814—London Globe.

A KING'S HOBBY.

The Mania of Frederick William I. For Collecting Giants.

All of the manias that afflict mankind the most ancient and curious is probably that of collecting. This vice has been practiced from everything from books to shoe buckles and from pots to postage stamps, but giant collecting was the hobby of the Frederick William I, king of Prussia. Nature designed him for a recruiting officer; destined made him a monarch. All were his hobby, collectors not — the following are his: Hesians, Turks, Swedes, Englishmen, Irishmen, Africans—provided they were at least two yards long. Some of his spec men were seven feet long. Now and then he obtained one still more prodigious.

The Saxon cabinet minister, Weekworth, foreseeing the possible advantages of standing well with so near a neighbor, in 1715 dispatched to Berlin a recognition of his less than majestic birth, Aug. 14, no less flattering than unique, since it consisted of a large bundle of tobacco leaves two feet long, a bunch of fragrant Larkins, all committed to the hands of seven foot passengers, with a mischievous imploring the king's gracious acceptance of these trifles and the Cupid who bore them.—St. Louis Post-Dispatch.

A Smile From a Stranger.

Most of us owe debts of gratitude to strangers whose kindly smile has sent sunshine into our aching hearts and has given us courage when we were disheartened.

It is a great thing to go through life with a smile. It costs little, but we can never estimate its value. Think how the pleasure of life would be increased if we met smiling faces everywhere—faces which radiate hope, sunshine and cheer! What a joy it would be to travel in a gallery of living pictures radiating hope and courage.

Who can estimate what beautiful smiling faces mean to the wretched and the downcast, those whose life burdens are crushing them?

Many of us carry precious memories of smiling faces which we glimpsed but once, but whose sweet, uplifting expression will remain with us forever.—Success Magazine.

She Was Deliberate.

It is said that Dinah Mulock Craik, the famous author of "John Halifax, Gentleman," made a habit of leaving at her bank the manuscript of each of her stories, and when she had finished it would remain there perhaps six months, and then she would call for it and see how the story affected her after that lapse of time. If it pleased her, the manuscript was sent to the publisher. Otherwise it was rewritten or thrown away.

Ear Wagging.

Only animals with long and drooping ears are able to wag them. A rabbit, for instance, can do what it likes with its ear, dropping one or both and laying them flat about its back when dashling through thick cover. Hares and foxes have short ears, and therefore cannot wag them. But short eared beasts, like weasels and stoats, are unable to wag their ears in any degree, although they have enough ear to wag if they had the power.

Accurate.

"See here, landlady," said an angry tenant after he had signed the contract for a year, "this house is full of sewer gas."

"Yes, that's what I told you."

"Told me?"

"Yes, you asked me if there was gas in every room, and I told you there was."—London Answers.

His Right Hand.

"My husband," said the fair bride, "says I am his right hand."

"I hope," rejoiced her mother, "that he isn't like that man who never lets his right hand know what his left hand does."—Chicago News.

Easy to Swit.

Mrs. Eastend—"You'll not find me difficult to suit, Nora. Now, ma'am; I saw

Everybody Suited.
He prided himself on having the largest general store in the county. His sign was "M. M. & Co., N. S. N. S. I. Have it" was the sign over his store and the motto which appeared in his advertisements in the newspapers.

"William," said he one morning as he was giving instructions to a green clerk, "no one must ever leave this store without making a purchase. I am perfectly sure you know what he wants, I suggest something. And remember we have everything from carpet tacks to manuscripts."

William's first customer was a leisurely chap who gazed about curiously, but had no definite object in view.

"Just looking around," he explained. "I would like to take a look at your new line of post cards?" suggested the eager clerk.

"No, not this time," answered the stranger. "I'm just a little short this morning."

William agreed with the new clerk, who was familiar with the wonderful slang language of the post office.

"No, not this time," he said.

"Sketchy Bits."

The Swaying Skyscraper.

Through the chandelier perfect adjustment in the hanging of a row of large photographs that hang on the wall of an office on the twenty-second floor of an office building downtown the clerks in the place have a good deal of quiet amusement with persons who visit the place for the first time. Over to the right the pictures are easily swayed by the wind that blows through the open windows, and since the office force goes in for fresh air the year round the pictures are never still. The joke lies in catching the horrified expression on the faces of the callers when they get a sight of the pictures. The reason for this is explained with due solemnity if the bows is not around that the swaying of the frames is due to the oscillation of the structure. It usually takes some time for the object of the joke to see the point. Meanwhile he has suffered a considerable shock.—New York Press

Rifles and Smooth Bore.

The main difference between a rifle and a smooth bore gun is that the inner surface of the rifle barrel has one or more spiral grooves cut into it. The object of this is to permit a portion of the material of the bullet or projectile to sink into the grooves. As the projectile passes along the barrel these projections into the groove tend to remain there, thus giving rise to a spinning motion. In fact, it is not only going forward, but is rotating rapidly as it goes. The axis will tend in accordance with the gyroscopic principle—to maintain without change its direction, thus finally saying that the projectile will tend to remain in its true course. So this is why a rifled gun shoots straighter than a smooth bore.—St. Nicholas.

Smooth Money.

One could think that smooth money would be saved in prosperous times when there is plenty of it about. But no; that is not the time when it is saved. It is the time when it is spent. Everybody spends it—governments, railroads, corporations, capitalists, housekeepers, house-builders, collectors. People expand their means and then spend more of them, and then is when it is most of all impossible to live on anything a rear. But after all the money has been spent a few times over and has come to be scarce and borrowing has come to be a serious matter and folks have much trouble getting it. Then comes the time when everybody groans and begins to save, not only trying desperately to squeeze back inside of the bounds of income, but to pay back what was spent in expectation of a time when having would have become convenient again. And then things begin to move, we spend more than we can afford, so that after the money has been spent and we are plunged for the lack of it we would still rather have what it brought than have the money back.—Appleton's.

Napoleon at Dinner.

Napoleon was no epicure. He usually drank nothing but diluted chamber wine and was no judge of wine. He liked plain, coarse-boiled or roast chicken, mutton chops, game meat of mutton, haricot beans, lentils. His manners were not very refined.

He would use his finger in lieu of fork or spoon and would slip his bread in the sauce, the dish being then passed round to guests, who had to dispense with squeamishness. The bread had to be broken in pieces and then the table was turned in twelve minutes and leaving Josephine and the company to take their time. When he dined alone he commonly took only eight or ten minutes. Indigestion was the natural consequence of this speed, and he had sometimes to stretch himself at full length on the sofa till the pain passed.

He delighted physiologically in indigestion in it, a subject of playful discussion with his doctors. Constant never knew him to be obliged to keep his bed a whole day. He was very sensitive to cold and had fires and warm beds all the year.

The Exact Science.

The teacher of the district school had invited Tommy to go with him to a concert to accompany her to a concert and called for him on her way. The family were still seated at their evening meal when Miss Lyndon knocked at the door. "Tommy ran to admit her, hastily swallowing a bowl mouthful of cake.

"I was a little early perhaps," said Miss Lyndon, "you're in the middle of supper."

"Oh, no," said Tommy, with airy poise; "oh, no, not at all. Supper's over."

DIRECTNESS AND ACCURACY.

minus result. This insured his success and gave him the reputation of "the greatest physician in the country." His secret was simple and easily remembered, the prescription that he thus used most often being "THIS FAVORITE" and was this:

Dr. Pierce's Favorite Prescription

is now known. In no sense is it a "patent medicine," or even a secret one, but a REAL PRESCRIPTION OF A REAL DOCTOR.

that had come into great popularity, because it cured every hundred of the cases in which it was correctly used.

Of the important ingredients in this now-world-famous "FAVORITE PRESCRIPTION" is

BLUE COROSH ROOT, which was in great request among the American people a few years ago. The squaws used it for the relief of their special troubles, particularly for the ease of delivery. Then there are four other ingredients in this "PRESCRIPTION," namely: Slipper Root, Golden Seal root and Unicore root.

It Stands Alone not only in its known composition, but also as the only specific, advertised remedy for woman's disease which absolutely CONTAINS NO ALCOHOL.

DOCTOR PIERCE'S AIM is always to give positive and VALUABLE SERVICE for every dollar received, therefore when he began professional life he sought to

AIM STRAIGHT AND HIT THE MARK.

Especially in the treatment of a very large class of cases that were being mastered by many physicians through ignorance and carelessness. This necessitated GOING TO THE ROOT of things in two special senses. In CAREFUL EXAMINATION he knew where the real cause of the malady lay, which afflicted women, and AGAIN TO THE ROOT he knew exactly what to do. Then his "PRESCRIPTION" is made of such ingredients and after a working formula that has thousands of cures to its credit, placed its merits above criticism.

1000-page Doctor Book sent free to cover postage only. It is stamped for cloth-bound book. It contains 1000 pages of ready reference tables of diseases, symptoms, causes of accidents, etc. It is illustrated with hundreds of plates. Address, Dr. H. V. Pierce, Buffalo, N.Y.

SOCIALISM AND M. O.

Socialists Regard Municipal Ownership as Step in the Right Direction.

At the recent labor conference at Hull, England, the Socialists voted to the effect that "we believe in the ultimate object of the Labor party." This party has steadily favored municipal ownership, but until this year has been unwilling to take the next and logical step of having socialism in power. It has just taken steps to a clearer understanding of the relation between the two movements. Socialism stands for the collective ownership of all the means of production; municipal ownership stands for the collective ownership of a part of the means of production. The difference is one of degree, not of kind, and in Great Britain no logical line of demarcation between the two has been found.

In this country, too, the Socialist is making full use of municipal ownership. He well knows that many people will buy a ticket to see him who would be frightened away if urged to buy a through ticket. The main point is to get them started toward his ultimate goal. After a man has been enlisted in favor of municipal ownership it is comparatively easy to get him to accept the principle of collective ownership of railroads, telegraphs and coal mines, although he may still not be ready to accept the whole Socialist programme, collective ownership of all the means of production, for the simple reason that he apt to be an owner or part owner of some "means of production" himself, either in a store or a share or two of stock in a manufacturing plant. That is why the national platform of the Socialist party is discreetly silent on some of the cardinal doctrines of socialism. The real purpose of collective ownership of all the means of production is therefore to put down a demand for

"The collective ownership of all industries which are organized on a national scale and in which competition is virtually ceased to exist."

The extension of the public domain to include mines, quarries, oil wells, forests and water power."

The platform is silent about municipal ownership of telephone plants and waterworks because M. O. people are attending to that part of the Socialist programme, leaving the thoroughlygoing Socialist free to concentrate his efforts on the second part of the programme as outlined above. It may look enticing to the Socialists that their cause doesn't intend to stop with public utilities and big corporations, nor until it has swallowed up in the great state machine every vestige of private ownership of everything except what a man wears on his back needs to furnish his home.

HITS DETROIT CITY PLANT.

Alderman Points Out Weak Place in Municipal Management.

"It the truth were known," said Alderman R. W. Watson of Detroit while in Milwaukee, "we are paying more for electric light in Detroit at the municipal plant than we could get it for from a private corporation. Our plant is obsolete."

The delegation of Detroit aldermen told Commissioner Jansen of the city's experience with municipal heating. When the Detroit city hall was half its present size it cost the city \$10,000 a year to heat it by a municipal plant in the winter. The Detroit Central Heating company now takes the enlarged building for \$3,000 a year.

The visitors said Detroit was confused as to what to do about the street railway system when the franchises expire in two years. The visitors said the city government of Detroit lost money on the three cent fare because the city had to pay \$10,000 a year to maintain the pavement between the tracks, while the four cent roads do.

Alderman Watson says that the board of estimate of Detroit has persistently refused to appropriate money to keep the municipal electric lighting plant up to date and that it is the same that will soon come when the entire expense of replacing the plant will have to be met in one year instead of gradually from year to year, and the cost of electric light will rise proportionately.—Milwaukee Journal.

A City Free From Debt.

On May 1, 1908, the city of Kokomo, Ind., paid the last dollar of its indebtedness. Its mayor, Hon. W. H. Arnett, contributes an article on the subject to the June issue of the City Hall, from which the following quotation is taken:

"Whatever may be said of the merits of municipal ownership elsewhere, the city of Kokomo is a singular example of what may be done with private corporations when dealt with by men of judgment and integrity. Her contracts are fair and reasonable, and her rates are not burdensome. Perhaps no stronger argument against municipal ownership could be made than the present condition of the city of Kokomo in relation to its public service corporations."

Another Plant For Sale.

A recent newspaper item dated at Festus, Mo., reads thus:

"The city council of Festus has offered to sell the electric light plant to a St. Louis syndicate for \$10,000, and it is believed the proposition will be accepted by the syndicate."

At a mass meeting recently held in Fort Branch, Ind., to consider the purchase by the town of the local electric plant the proposal was rejected by

Not Quite What She Meant.

The young woman who received the following note from a man she would have been better pleased if she had employed a comma or two: "Jack Hugard called yesterday. Jack couldn't have heard of our engagement, for before leaving he proposed. I told him I was sorry I was engaged to you."

If you haven't time to exercise regularly, Doan's Regulates will prevent constipation. They induce a mild, easy, healthful action of the bowels without griping. Ask your druggist for them. 25c.

Woman in High Position.

The only woman in the world who bears the impressive title "dean of deans" is Miss Laura C. Carnell, who is a leader in the executive and educational work of Temple university, in Philadelphia.

Life's Best School.
Life's best school is living with people who are worth knowing. Those who would be frightened away if urged to buy a through ticket. The main point is to get them started toward his ultimate goal. After a man has been enlisted in favor of municipal ownership it is comparatively easy to get him to accept the principle of collective ownership of railroads, telegraphs and coal mines, although he may still not be ready to accept the whole Socialist programme, collective ownership of all the means of production, for the simple reason that he apt to be an owner or part owner of some "means of production" himself, either in a store or a share or two of stock in a manufacturing plant. That is why the national platform of the Socialist party is discreetly silent on some of the cardinal doctrines of socialism. The real purpose of collective ownership of all the means of production is therefore to put down a demand for

"The collective ownership of all industries which are organized on a national scale and in which competition is virtually ceased to exist."

The Soft Answer.
Anger is like the waves of a turbulent sea; when it is directed with a soft, even, and with little strand, it retires and leaves nothing behind but froth and shells—no permanent mischief.—Jeremy Taylor.

New Stock Issue.
Books for subscription to stock in the 54th series of the Hopkinsville Building and Loan Association will be open Oct. 1st. A limited number of shares will be sold at office of the Treasurer at First National Bank.

Cooking Exhibition

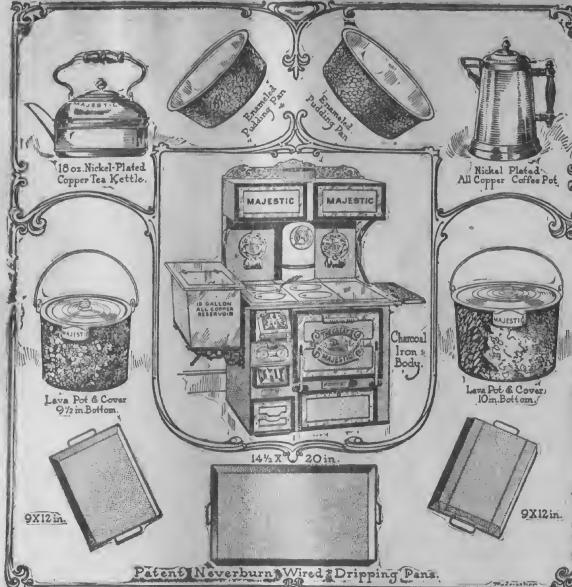

OF THE
GREAT MAJESTIC MALLEABLE AND CHARCOAL IRON RANGE
AT OUR STORE
One Week MONDAY OCT. 12, 1908. One Week

FREE!
\$7.50.
Set of Ware.

With every Majestic Range sold during this Cooking Exhibition, we will give absolutely FREE one handsome set of ware as shown. This ware is worth \$7.50 if it is worth a cent. It is the best that can be bought. We don't add \$7.50 to the price of the range and tell you you are getting the ware free, but sell all Majestic Ranges at the regular price. You get the ware free. Remember this is for exhibition week only. Ware will not be given after this week. This ware is on exhibition at our store, and must be seen to be appreciated.

Come in any day during the week. Make our store your headquarters. Have coffee and biscuits with us.

Come, if you intend to buy or not; the information gained will serve you in the future.

Facts About

The Great Majestic Range

It is the only range in the world made of Malleable and Charcoal Iron.

It has, beyond any question of a doubt, the largest and best reservoir.

It uses about half the fuel used on other ranges, and does better work by far.

The Majestic All Copper Nickelized Reservoir heats the water quicker and hotter than any other. It is the only reservoir with a removable frame.

The Charcoal Iron Body of the Great Majestic Range lasts three times as long as a steel body.

Being made of non-breakable material, there is practically no expense for repairing the MAJESTIC.

As for baking, it is perfection; not only for a few months, but for all time to come.

A Great Majestic Range lasts three times as long as a cheap range, but it doesn't cost three times as much.

PROOF.—We don't ask you to take our word for any of the above statements, but if you will call at our store, a man from the factory, where Majestic Ranges are made, will prove to your satisfaction that these are absolute facts, and will show you many more reasons why the Great Majestic Range is absolutely the best that money can buy.

Everybody Welcome!

Forbes Manufacturing Co.

(INCORPORATED.)

NUPTIAL VOWS

Taken By Mr. Gregory And Miss Boyd.

The marriage of Mr. E. D. Gregory, of the Church Hill neighborhood, and Miss Susie May Boyd, of Elm Creek, Neb., occurred last evening at 6 o'clock at the residence of Mr. J. M. Adams, Church Hill. The ceremony was performed by Rev. W. T. Miller, of this city. The wedding was a very quiet affair, only a limited number of the relatives and closest friends of the young people being present at the happy event.

An elegant supper was served, after which Mr. and Mrs. Gregory were driven to the home of the groom's mother, where they will reside.

The bride is a step-daughter of Mrs. J. L. Boyd, formerly Miss Joe Sivley, of Elm Creek, and is a very pretty and charming young woman. She and her mother have been visiting relatives in the county for several weeks and Mrs. Boyd will return to Nebraska in a few days and later will go to California, where one of her sisters resides.

The groom is a prosperous young farmer and is a son of the late Hiram C. Gregory. He is well known and very popular with every one.

Wm. E. Smith, the missing student at the State University, has not yet been found and the university trustees and three classes have offered \$200 reward for his discovery, making the aggregate \$25. The students all vigorously deny that having had anything to do with his disappearance.

Mr. For Sale at a Bargain

"Shall The People Rule?"

These campaign issues underlie Mr. Bryan's proposition that this year as heretofore it is a question of: "Shall the people rule?"

1. Popular election of senators.
2. Publicity of campaign contributions before election.
3. Valuation of railroads properties by the government.
4. Lowering of the tariff.
5. Injunctions.
6. The trusts.

On No. 1 the Republican platform is silent; the Democratic favors.

On No. 2 the Republican platform is silent; the Democratic declares for it, besides covering every commendable point set forth in the Republican utterance.

On No. 3 the Republican platform is silent; the Democratic favors.

On No. 4 the Republican platform makes vague promise; the Democratic offers protection to labor by prevention of issuance of decrees when in other than labor disputes they would not issue.

On No. 6 the Republican platform is silent; the Democratic favors.

On No. 5 the Republican platform makes vague promise; the Democratic offers protection to labor by prevention of issuance of decrees when in other than labor disputes they would not issue.

If the foregoing omissions be endorsed and the Republican returned to power, these issues having been openly raised, what complaint can the people make if their rule be further prevented, as it has been in the past?

Could conclusion be plainer?

Announcement.

We are authorized to announce J. Renshaw as a candidate for the

BRYAN CLUB

Will Hold a Meeting To-morrow Night.

Don't forget that there will be a meeting of the Bryan and Kern club at the court house Friday night and a large attendance is expected. There will be speaking by members of the club.

TERRY SALE.

Sells 387 Acres of Texas Land at Big Profit.

Thomas Terry, son of Thomas

Terry, deceased, who for many

years sold dry goods in LaFayette,

sold his real estate at LaFayette

about one year ago and moved to

Amarrilla, Texas. Soon after arriv-

ing there he bought 387 acres of

land, about 3½ miles from Amarilla,

at \$22.50 an acre, and has just sold

it at \$50 an acre.

He married some months ago and

has recently built a nice residence

on his farm and is keeping house.

Several offers have been made him,

so we presume that the last one is

not a surprise to himself or his

friends.

A prospector from Kansas made

the purchase. Mr. Terry expects to

buy more land in the vicinity of Am-

arilla.

FOOT BALL GAME

Friday Between Hopkinsville and Pembroke.

The local High School team will

play the Pembroke High School

team, Friday on the S. K. C. ground.

As both teams are about the same

weight a spirited contest is expected.

Although several of the best men on

last year's team are not at school this

year a fairly good team has been de-

veloped under the coaching of Rev.

C. H. H. Branch.

The admission for this game is

only 15 cents and it is expected that

a large crowd will attend.

It is probable that the following

squad will be tried out: Dahney,

H. Cate, Long, Meacham, Rudd, Fe-

land, Miller, Myers, Graves, Jarrett

Personal Gossip

Mrs. Chas. Driver and daughter, Mrs. Ernest Williams, are visiting friends and relatives in Hopkinsville.

Maj. Cyrus S. Radford, of the U. S. N. A., arrived here this week for a short visit. Mrs. Radford and little son have been here for some time.

Walter Krone, county attorney of Lyon, was here Monday.

Attorney Jas. M. Yeaman, of Henderson, was here this week as a witness in the Winfield case.

Editor Paul Moore, of Earlington, Bee, came down to hear Gov. Wilson speak.

Mr. and Mrs. H. H. Perkins have returned to Pensacola, Fla.

Hon. Jas. B. Garnett, of Cadiz, has temporarily moved to this city to take the osteopath treatment at the hands of Dr. J. E. Oldham.

Miss Mildred Wharton has returned to her home in Trigg county after a visit here.

Meers, Geo. C. Long and Gabe L. Campbell have gone to Lawton, Okla., to attend a convention of the League of American Sportsmen, having been commissioned by the governor as delegates from the state of Kentucky.

Miss Myrtle Lindsay is visiting in Madisonville.

Mrs. John C. Latham and her mother, Mrs. Gaylord, left for New York Tuesday.

Ira L. Smith and wife have gone to Oklahoma on a visit to friends.

Messrs. L. H. McKee and W. A. P. Pool, of this city, B. F. Goodwin, of Trigg, and Geo. Miller, of Todd county, left here Tuesday for Mexia, and the Panhandle section of
